Membership-The Midwest Coalition of Labor Credit Union (MCLCU) was established for union members in good standing or employees of a union included in the Midwest Coalition of Labor (MCL), along with Teamsters Local 731 and immediate family members. By limiting our field of membership, we can afford to offer the special advantages available through the credit union.

When you joined you were required to complete a membership application and make a minimum deposit of \$100 to open a share (savings) account. The \$100 represents one share with a par value of \$100 and is always required to be in your account to receive the many services offered by MCLCU. The **USA Patriot Act** was passed to help the government fight the funding of terrorism and money laundering activities. Federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that when you opened your account, we asked for your name, address, birth date, and other information that allowed us to identify you. We also asked to see your valid driver's license or state I.D. with current address.
